Goddard Defeated Holder-  
ness School in Church  
Street Gymnasium

WINNING POINT MADE  
ON A FREE THROW

Visitors Seemed to Start off  
Like Sure Win-  
ners

Goddard's second game of basketball on her home floor this season was played last night against the husky Holderness school five and resulted in a win for the local team by the score of 29 to 28.

The game as a whole gave one the impression of being slow, though there were bursts of speed shown from time to time by both teams. Goddard was somewhat handicapped by her suspension of practice during the recent two weeks' recess, caused by the outbreak of scarlet fever at the seminary, and showed the lack of practice in passing and team work. Connor was the life of the seminary team and his team-mate, Loudon, played an excellent game. Wilson was substituted for H. Goslant in the last half, taking Loudon's place at forward, while Loudon played center. For Holderness, Calnan and Crippa were the shining lights, the former getting seven baskets and the latter six. "Jim" Laird, the former Goddard and Montpelier high school player, was a hard man to stop and played his position of guard well.

Holderness started the scoring with two baskets contributed in quick succession by Calnan and Crippa. Shortly afterward, H. Goslant secured the first basket for Goddard on a long shot from the center of the floor. For a time Holderness seemed an easy winner, for her forwards were throwing baskets from all angles. Connor's contribution of five field goals in the latter part of the half, however, gave the seminary team the lead with the score of 16 to 12 at the end of the period.

Holderness came back strong in the first part of the second period, Laird finally tying the score at 20 to 20, with a splendid shot from the center of the floor. Two more baskets each from Crippa and Calnan made the game look like Holderness', but Goddard's steady plugging finally gave her a one point lead on a foul thrown by Connor and time was called before her lead could be broken.

The summary:  
Holderness.....Goddard  
Calnan, f.....Riley  
Crippa, f.....A. Goslant  
W. Waggoner, c.....H. Goslant  
Laird, lg.....Loudon  
Hackleman, rg.....H. Connor  
Score—Goddard 29, Holderness 28.  
Goals from floor, Calnan 7, Crippa 6, Laird, Connor 7, Loudon 3, H. Goslant, Wilson—Goals from foul, Connor—Referee, Scampini—Time, two 20-minute periods.

### AMUSEMENT NOTES.

"When Dreams Come True," Musical Comedy Coming Next Friday.

From time to time during the past theatrical season, stories have come to the newspapers regarding the successful engagement played by "When Dreams Come True" in New York, Chicago and Boston.

Our local theatregoers who have no doubt read these stories, will now have an opportunity of seeing this widely discussed musical comedy when it comes to Barre opera house, Friday, Feb. 25. The play tells of the adventures of a wealthy New Yorker's spry young son, who becomes involved with a French dancer while he is in Paris, his allowance cut off by his irate parent, and thus is compelled to go home in the steerage. In the first cabin, there is a young girl whom he sees and with whom he falls in love from afar, but of course, cannot until both are on shore, where trouble accumulates for them. In the course of the play the young fellow finds himself simultaneously and unwillingly engaged to three or four females of varying ages and charms, and it is not until the last minute that he is free to marry his dream girl of the ocean liner.

The scenic investiture of the play is elaborate to the last degree, one scene especially, the ball-room in the last act representing the highest degree of the scene painters' art. This scene is painted on silk and the woodwork is of circassian walnut.—Adv.

## THAT LIVER IS NO GOOD

that is so lazy it lets the skin do part of its work. The skin turns yellow doing it. Such a liver upsets the whole system. Take Hood's Pills, they put the liver to work; best for biliousness, yellowness, constipation. Do not irritate nor gripe. Price 25c, of druggists or C. I. Hood Co., Lowell, Mass.

## EVERYONE LIKES THIS COLD CURE

"Pape's Cold Compound" Ends a Cold  
or Gripe in a Few  
Hours

Your cold will break and all gripe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.—Adv.

## MORGENTHAU MADE UMBRELLA OF THE FLAG

Ambassador Reaches New York from  
Constantinople—Lansing Warns  
Him Not to Talk.

New York, Feb. 23.—Henry Morgenthau, United States ambassador to Turkey, arrived here yesterday on the Frederick VIII. The ambassador was taken off the steamer on a revenue cutter.

In an address to Mayor Mitchell's reception committee, which met him, Mr. Morgenthau said he had just received a note from Secretary Lansing advising him to be guarded in his speech regarding foreign and diplomatic affairs. He said he would leave New York for Washington in 60 days, but it is understood that he will request its extension to the first of May.

Mr. Morgenthau said that at first his duties in Constantinople were merely routine. "Soon after the war broke out, however," he continued, "I saw it was necessary, in a way, to make an umbrella of the American flag. I made it my duty to see that no one pulled too much of the umbrella over himself."

Informed by newspaper men that his name had been mentioned as a possible successor to Lindley M. Garrison as secretary of war, Mr. Morgenthau said: "There is not the slightest chance of my succeeding Mr. Garrison. I have already mapped out my work for the next year, and I shall stick to it."

### HORSEMEN AT BANQUET.

Those at Lyndonville Augmented By Others from a Distance.

Lyndonville, Feb. 23.—Following the matinee of the Lyndonville Driving club, which was held on the snow path yesterday afternoon, the club last night entertained nearly 100 guests at a banquet in Cable hall. Prominent horsemen were present from Vermont and New Hampshire and Massachusetts, and the event was one of the most successful in the history of the driving club. Dr. H. M. Smith acted as toastmaster and the following were called upon for speeches: Dr. D. Bean of St. Johnsbury, Louis M. Smythe of St. Johnsbury, John O. Ray of Boston, and George M. Stevens of Lancaster, N. H. The ladies of the Congregational church served an excellent banquet. The committee in charge were Dr. David R. Brown, Everett E. Ruggles, and L. R. Farrar.

This season has been a very successful one on the snow path and some excellent sport has been furnished Saturday afternoons. Keen racing has been the rule and former records have gone down at nearly every meet. Ruth D., owned and driven by Dr. D. R. Brown, has four times set up new marks. The first new record hung up by this spunky little mare was 30 1/2 seconds for the quarter. This was considered good time until the next matinee when the same horse clipped off a quarter of a second, turning the track in 30 1/4. Not content with this, Dr. Brown drove his speed marvel in 30 seconds flat in the next week's meeting, beating out Gott Ett, which had been imported from Montpelier with the one idea of showing Ruth D. his heels. It was only natural that horsemen thought the record of 30 flat would remain for some time, but on Feb. 12, Ruth D. was forced to even a faster pace to retain her supremacy on the local snow path. This time she was matched against "Skibo," the property of Ruggles Brothers, and was given the race of her life. In the second heat of their matched race, the horses finished neck and neck, and the winner was clocked in 29 1/2 by four judges.

Much credit is due A. E. Ruggles, president, and P. R. Griswold, secretary of the club, for the successful season as they have put in a vast amount of work, and have kept interest in the sport at a high pitch.

### BAR ALIEN DRAFTSMEN.

None To Be Permitted To Take Navy Examinations.

Washington, Feb. 23.—Fear of endangering navy secrets has caused the civil service commission to cancel its recent announcement of an examination to which alien draftsmen would have been admitted to qualify for employment by the United States navy. New papers have been issued, limiting examination to full-fledged American citizens.

## BIG AIR FLEETS LOCK IN BATTLE

Hundred Aeroplanes Fight  
Over the Western  
Front

ONE ZEPPELIN  
BROUGHT DOWN

Fokker Wrecked and Others  
Were Forced to  
Land

London, Feb. 23.—On the French front the war in the heavens is reaching unprecedented proportions. One Zeppelin was brought down in flames, one Fokker plane wrecked and three other German aeroplanes disabled and forced to land within their own lines.

In the last 72 hours great squadrons of aeroplanes on both sides have raided opposing lines and battled high above the trenches.

In the region of Revigny the German flight battalion was made up of 15 aeroplanes. They engaged a superior force of French craft. Near Vigneulle-lès-Hattonchâtel, seven French machines assailed four Germans. In the aggregate it is probable that more than 100 aeroplanes and airships were fighting at the same time.

It was a day of German disaster. On the other hand, every one of the French aeroplanes returned to the aviation bases.

A French bombing squadron, comprising 16 planes, threw 66 high-power bombs on the German aviation field at Habsheim and on the freight station at Muelhausen in Alsace.

A German munitions plant was bombed by another flying battalion of 28 machines at Pagny-sur-Moselle.

The Zeppelin overtaken by disaster was sailing southward from Ste. Menehould. The roads beneath swarmed with motor cars armed with anti-aircraft guns, which sprayed the aerial lions with fire from incendiary shells. One of the shells burst above the dirigible and showered it with flames. The Zeppelin fell blazing in the outskirts of Brabant-le-Roi.

The Fokker was wrecked in a fight with a French aeroplane east of Altkirch in Alsace. In the Revigny air battle the German squadron dropped bombs on that place, Frimes and Bar-le-Duc. A German machine was forced to land and its occupants were made prisoners.

Within the allies' line Lunéville, Dombaive, Nancy, Fumes, Perlinghe and Amiens were bombarded.

### JUSTICE DAY ILL.

Jurist, Stricken By Grip, May Never Resume Bench.

Washington, Feb. 23.—Friends of Associate Justice William R. Day expressed the fear yesterday that he would never again be able to assume his seat upon the supreme bench. Justice Day, who is 67 years of age, has been in ill health for several years. Recently he has been stricken with the grip and has been unable to do practically no work since. He was appointed to the supreme court by President Roosevelt in 1903.

Justice Day will leave for Atlantic City next week to spend the month of March there in the effort to regain his health.

### HOUSTON STAYS WHERE HE IS.

Neither He Nor Lane Will Succeed Garrison as Secretary of War.

Washington, Feb. 23.—President Wilson virtually has eliminated Secretaries Houston and Lane from consideration for the position of secretary of war. It is said in official circles that the president believes both of these cabinet officers so eminently fitted for their present positions that he was very reluctant to transfer either to the war portfolio. Mr. Wilson has not decided on Mr. Garrison's successor and is said to have several middle western lawyers under consideration.

### Mortimer Champion.

Boston, Feb. 23.—Stanley G. Mortimer of the Tuxedo Tennis and Racquet club yesterday captured the national title in racquet singles from Clarence C. Pell, of the same club.

Employers Using Scientific Advisers to Get the Right Man for the Right Place.

In the March American Magazine Hugh S. Fullerton says in his article, "Getting and Holding a Job," that employers have become weary of paying out immense sums of money every year to find out that their employees do not know, what work they are fitted for or can do. And a number of them have invoked the aid of science to get the right man for the right job.

"There is nothing occult, nothing uncanny or philanthropic about it—simply a solid business proposition of saving time and money, of preventing waste of human industry that may be valuable somewhere else, and of minimizing the changes in working forces. The movement is growing in New York, well started in Boston, and under consideration in other cities. In Chicago, New York and Boston, employers' advisers clubs are working out the problems, and in time the movement is expected to result in a series of clearing houses for workers which shall supply every employer with the right man for the right place."

### NORTH MONTEPIER.

"The Mistress of St. Ives," will be given by the hall association Wednesday and Thursday evening, Feb. 23 and 24, at the hall. A dance will be given Thursday evening after the play. This is one of the best plays yet put on. A large crowd is looked for.—Adv.

## QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take Tablespoonful of Salts if Back Hurts  
or Bladder Trou-  
bles

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog, and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful, effervescent, lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

## VILLA BESIEGES CITY; EXECUTES 80 PRISONERS

The Bandit Leader is Said to Have Well  
Armed Force of 900  
Men.

El Paso, Tex., Feb. 23.—With a force said to number 900 well armed men, Francisco Villa has besieged the city of Guerrero, Mexico, according to official advices received here yesterday.

The commander of the Carranza garrison in Guerrero sent an appeal for assistance. He said the Villistas outnumbered the garrison but that he would try to hold out until help reached him.

Eighty prisoners, taken by Villa after he dispersed the Carranza forces under Gen. Cavazos near Cusubirachic, were reported to have been executed by the Villistas. Cavazos commanded one of the columns sent to exterminate Villa. The bandit leader's present large force and recent victories, following his threats to raise a new revolutionary army, have caused the deepest pessimism among Carranzistas in El Paso. Villa replenished his munitions supply from the loot captured in the victory over Cavazos.

### RADIO SWEEPS THE COUNTRY.

Preparedness of 25,000 Licensed Amateur Operators Demonstrated.

Chicago, Feb. 23.—The message sent by wireless to governors of states and mayors of large cities at 11 o'clock Monday night from Davenport, Ia., as a demonstration of the radio preparedness of the country's 25,000 licensed amateur operators, reached the remotest parts of the country through various relays, according to advices received here yesterday.

On account of the number of relays it required about an hour and a half to send the message to the Pacific coast, more than 2,000 miles from its starting point. The message, which was authorized by the United States government and signed by Colonel W. J. Nicholson, commander at the Rock Island arsenal, is as follows:

"A democracy requires that a people who govern and educate themselves should be so armed and disciplined that they can protect themselves."

Boy scouts were on hand yesterday to deliver the message to the various executives throughout the country.

## U-BOAT THREAT GOES TO LONDON

British Embassy Acts in  
Espagne Warn-  
ing

GERMANS SCOFF  
AT THE NOTE

"Work of Cranks," Is Their  
Comment on the  
Incident

Washington, Feb. 23.—The British embassy will send to its home government notice of the warning given liner Espagne, due to sail from New York on Friday.

What steps the British government will take after receipt of the warning is unknown to the embassy, it was said.

"We have heard frequently of warnings to Americans not to sail on belligerent ships. Often they are sent out by cranks. But we can't afford to take chances," an embassy official said.

The embassy has not heard of the warning sent to Mrs. F. Banker Hillton, officials said, until informed by newspaper men. Great interest was expressed in receipt of the dispatch.

The German embassy took the view that any warnings given Espagne passengers must have been by harmless cranks. Embassy officials pointed out that the vessel is unarmed and said her sailing could be of no concern to Germany.

A few days prior to the sailing of the Lusitania on her fatal trip the German embassy inserted advertisements urging prospective passengers to abandon their bookings. From time to time anonymous warnings have been issued to persons scheduled to sail on liners.

The present letters, however, are more numerous than in the other cases. Mrs. F. Banker Hillton of 116 East Sixty-third street, has received this communication:

"Madam: It is understood that you intend to sail within the next few days upon the steamship Espagne for Bordeaux, France. You are doubtless fully aware of the intended submarine policy which is to come into effect any day and which will be carried out rigorously, irrespective of the nationality of persons upon the vessel attacked."

"Therefore, assuming that you are aware of the unusual and unnecessary danger that you are to subject yourself to, you are requested to receive this warning as definite and unquestionably necessary and which you are requested not to question, but to accept for the safety of yourself and that of your family."

The Espagne is one of the slower boats of the French line. She will depart Feb. 24 and will reach Bordeaux, her schedule indicates, about March 4.

The Espagne warnings have caused apprehension regarding the La Fayette, which sails from New York Feb. 26. She

### For Tired School Children

Boys and girls who have been bending over their desks for weeks and months, and often studying at home late into the night, get into a weak, nervous, run-down condition, and wise mothers will take the advice of our local druggist, Floyd G. Russell, proprietor of the Red Cross Pharmacy, and give such children Vinol, because it is a non-secret preparation which contains the three oldest tonics known, and is guaranteed to strengthen and restore health to weak, overworked, run-down people, and to cure chronic coughs, colds and bronchitis, or you can get your money back.—Adv.

## Fine, Warm Coat Sweaters

such as we have here are  
worth looking at—  
and wearing.

Between now and warm  
weather, there'll be plenty  
of occasions when a Coat  
Sweater will be just what  
you need to keep off the  
shivers.

Come and try a few of  
them on, and see how  
"dressy" they are.

## Moore & Owens

Barre's Leading Clothiers  
Barre, Vt. Tel. 66-W

is a French liner. On that day the Cunard Tuscania is booked to leave for England.

At the French line office yesterday it was announced that the departure of the Espagne had been postponed from Thursday to Friday. The sailing had been previously put over from yesterday. The delay in sailing is not due to the warning letters, it was declared.

"We ignore such warnings," an official of the company said.

The state department in Washington has been advised but has expressed unwillingness to believe that responsible persons sent the warnings. It is recalled, however, that the state department failed to place credence in the Lusitania warnings inserted in newspaper advertising columns.

Washington authorities cannot believe that the central powers have any intention of torpedoing with warning. They point out that none of the French liners are armed.

The Espagne was launched in 1909. She is a steel twin screw steamship of 11,155 tons and is 538 feet long.

Is a Satisfactory Tariff Commission Possible?

Under the existing traditions of our political life the only way to secure a permanent, dignified, able, non-partisan body is through the establishment of an independent board. A board composed of administrative officials would necessarily be subordinate to the heads of the several cabinet departments, and would be supposed to be under their political influence. To have the desired non-partisan and impartial character, it is said that a tariff board must be composed of new appointees, independent persons, and men of larger caliber than can now be expected as sub-officials in the departments. One's attitude on a problem of this sort is necessarily influenced by one's general expectations and hopes on political matters. Will there never be in our federal service a permanent body of officials, experts in their subjects, not changing with every administration? Will all the good places in the departments always remain within the spoils system? I can understand that, in view of the rooted habits of the present and the past, it may be concluded that permanent expert service can be got only by the establishment of a separate commission. I hope for myself that we shall

learn to make our regular administrative machinery better, that we shall improve the existing system step by step instead of getting round it step by step. But it is easy to understand the attitude of those who believe existing traditions any ways, even though admittedly bad, to be so strongly entrenched as to make it hopeless to attack them directly.

The essential thing is that we should have a permanent and really non-partisan set of officials whose first duty should be to assist Congress in the intelligent and careful framing of tariff legislation. Its main function should not be to give advice to Congress upon questions of policy, or to undertake investigations which rest upon the assumption that some particular policy is to be carried out.—Prof. F. W. Taussig, in the North American Review.

## GIRLS! DRAW A MOIST CLOTH THROUGH HAIR. DOUBLE ITS BEAUTY

Try This! Hair Gets Thick, Glossy,  
Wavy and Beautiful at  
Once

Immediate!—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant, and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.—Adv.

## That Camel blend turns the trick!

Get the new flavor and new satisfaction the blending of choice Turkish and choice Domestic tobaccos provides in Camel Cigarettes. You'll prefer that blend to either kind smoked straight! Prove this to yourself by comparing Camels with any cigarette at any price!

Smoke Camels to your heart's content because they are freed from tongue-bite and throat-parch; because they leave no unpleasant cigarette after-taste. Quality is so apparent in each puff, smokers do not look for or expect premiums or coupons.

That new mellow-mildness, that new "body" puts an entirely new idea of cigarette satisfaction into your mind!

**Camel**  
Cigarettes

Camels are sold everywhere in scientifically sealed packages, 20 for 10c; or ten packages (200 cigarettes) in a glassine-paper-covered carton for \$1.00. We strongly recommend this carton for the home or office supply or when you travel.

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

The stamp placed over end seals the package, which keeps it airtight, thereby preserving the quality of the blend of tobaccos. By inserting the fingers as illustrated, the stamp is broken without tearing the tin foil, which folds back into its place.
